Highland Park Elementary

**Response to Instruction and
Intervention- Behavior**

What is RTI-B?

RTI-B is a multi-tiered support system for meeting the behavioral and social needs of the students in our school. We are working with Vanderbilt University this year to implement Tier 1, which applies to all of our students. We will be implementing school wide behavioral expectations for our students to follow. Students who are caught making good choices, will be rewarded for their positive behavior.

Highland Park Behavioral Expectations:

1. Be Ready
2. Be Safe
3. Be Kind

The staff at Highland Park encourage parent and community involvement. If you have suggestions which might improve our program, please contact a member of our RTI-B committee.

RTI-B is an effort that involves our entire school, from the youngest students to our most experienced staff members.

This program will help us decrease classroom disruptions and have fewer behavioral incidences involving office referrals. We decide the kinds of behavior that we want for our school, share the expectations with all the students and staff, and practice that behavior.

RTI-B will help our school maintain a positive atmosphere where learning happens!

Welcome to our RTI-B program!
